

KP Scholars Academy, Family Caregiving Institute Online Family Caregiving Champion Certificate

Family caregivers play an important role in patient care, but aren't always effectively engaged. The Family Caregiving Champion Certificate will help you better address the needs of these unpaid caregivers in a clinical setting.

Understand your role as an advocate - both for individuals and within the Kaiser Permanente system. Solutions-based instruction ensures concepts can be immediately applied in different work settings.

Certificate program highlights

- Applications open May 1 and close May 31
- 3-month online course launches Aug. 16
- Instructor-led online sessions twice a month on Wednesdays from 5 - 6:30 p.m. PDT
- Up to four hours of additional self-paced online course time each section
- No prerequisites required
- R.N. continuing education units are provided

The course is led by Heather M. Young, associate director for strategic partnerships for the Family Caregiving Institute, Professor and Dean Emerita at the Betty Irene Moore School of Nursing, and Michelle Camicia, Kaiser Foundation Rehabilitation Center director.

Heather M. Young

Certificate is open to interprofessional learners.
