

MASTER OF SCIENCE IN NURSING – CLINICAL LEADERSHIP EDUCATION

Transforming healthcare by meeting emerging needs in
nursing education through new and innovative approaches

- Be at the forefront of technological advancements in nursing education that support learning, wellness, and resiliency
- Prepare to lead the next generation of nursing innovators
- Discover virtual reality learning experiences as an emerging educator
- Ideal for nurses who are looking for a career change, and are committed to diversity, equity, inclusion, and belonging as a foundation for practice
- Graduates of the program will create meaningful work to be shared through publication as an Apple Book, presentation at conferences, and/or published as open educational resources
- Offers a no-barriers approach to earning your graduate degree: no GRE, personal statement/essay, or letters of recommendation required
- Graduates of the program will sit for the Certified Nurse Educator (CNE) exam
