

2024 Equine Leadership Program

This program seamlessly integrates Caring Science theory and HeartMath® best practices to cultivate a leadership style that resonates with empathy, mindfulness, and authenticity.

2-Day Workshops

Day 1: 3-hour virtual class

Day 2: In-person experience

Embark on a transformative journey with our Equine Leadership Program, specially crafted for leaders and teams seeking to reconnect and thrive in the post-pandemic era. As the world recalibrates, the significance of mindful leadership and team synergy has never been more pronounced. Our program combines the convenience of remote foundational pre-work with the immersive experience of in-person training at our esteemed EquuSatori centers. Participants will delve into exercises that enhance leadership consciousness, fostering an environment where compassion, competence, and confidence flourish. These activities are designed not only to strengthen individual leadership qualities but also to enhance team dynamics, promoting a cohesive, supportive, and resilient workplace culture.

“The equine experience is transformative to head and heart for individuals and teams...The investment of time is well worth it!” Ann Williamson, PhD, RN, NEA-BC, former Regional CNE for KP NCAL

Save the Date!

May 20 and 21

Monday, May 20 (online)

Tuesday, May 21 (ranch day)

June 17 and 18

Monday, June 17 (online)

Tuesday, June 18 (ranch day)

August 22 and 23

Thursday, August 22 (online)

Friday, August 23 (ranch day)
