

**“Now more than ever, nurse leaders need the skills, support, and trusted community to thrive in today’s complex healthcare environment.”**

## PROGRAM HIGHLIGHTS

Facilitated roundtables and sessions focused on leadership pain points, including:

- Nursing innovation and tech-enabled care
- Performance management conversations that leaders avoid
- Financial wellness + resilience (burnout/retention connection)
- Workforce stability, retention, and empathic leadership
- Succession planning and building the next generation of leaders
- Burnout mitigation and suicide prevention strategies
- Equitable staffing and outcomes
- AI in nursing (forum + conference content, including simulation)
